
DC Voltage Monitoring Relays

Voltage Relay

Function

Detects situation of under voltage and Over voltage. Also actuates trip/alarm circuit.

Application

Float cum boost Battery chargers for power plants, Aux. supply, DC sources and power supplies for telephone Exchanges etc.

Specification:

- Aux. Supply : 240/110 V (AC) , 24/12 V (DC)
- Trip Voltage : 0-75 V (DC), 80 - 150 V (DC)
- Output : 2 Change-over (Potential free)
- Sensing : DC source voltage
- Indication : LED (Aux. Supply, UV, OV)
- Mounting : Rail/ Panel
- Enclosure : ABS molded
- Dimensions : 60x70x130
- Reset : Auto Reset
